Dear PPSEAWA-NY Members,
You Are Cordially Invited to Attend the April Program

Love Our Earth

Environmental Protection
by Michael Lam and Xai McGerty

Michael Lam moved from the East to New York City over 20 years ago. He created Single Stroke Painting based on his calligraphy skill. His inspiration is the elevation of the human spirit to a higher plane of awareness, sensation and actualization. Lam has received awards and recognition for his work all over the world. He used his work to support the AEIOU Foundation and UNICEF for children. He was selected for "Artists for the Jubilee" and had exhibition at Basilica of St. Paolo, just outside the Vatican Walls in December of 2015. The exhibition was under the patronage of the Extraordinary Holy Year.

Michael lam, an artist, wants to use his artwork to remind people to care for the environment. He had created two paintings about environmental protection and presented it in Australia and New York City. From the survey of his presentation, people were grateful for his contribution and gave him big support. They agree it is necessary for everyone to do positive actions to protect our environment and the Earth.
